

ADESOLA SOLARIN

Front-End Engineer | 2+ Years Experience

Lagos, Nigeria | +234 9063 2686 09 | adesolasolarin@gmail.com

LinkedIn: <https://www.linkedin.com/in/adesola-solarin-42692522a>

GitHub: <https://github.com/CaptainYami1>

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Front-End Engineer with over 2 years of hands-on experience designing, developing, and maintaining responsive and user-friendly web applications. Proficient in HTML5, CSS3, JavaScript, React.js, and modern development tools. Demonstrated ability to deliver high-quality code, work collaboratively with crossfunctional teams, and contribute effectively to fast-paced, Agile development environments. Experienced in integrating RESTful APIs, building dynamic single-page applications (SPAs), and applying responsive design principles to ensure consistent user experiences across devices.

Seeking to contribute to forward-thinking engineering teams, including opportunities in international and remote-first environments such as Japan, VanHack-partnered companies, and global tech startups.

CORE TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript (basic)
 - **Libraries/Frameworks:** React.js, Redux, Tailwind CSS, Bootstrap, React Router
 - **Tools & Platforms:** Git, GitHub, VS Code, Figma, Postman, Chrome DevTools,
 - **Development Practices:** Responsive Design, Agile/Scrum, RESTful API Integration, Component-Based Architecture, Code Reusability, SEO Best Practices
 - **UI/UX Design:** Wireframing, Prototyping, User-Centered Design, Mobile-First Design
-

PROFESSIONAL EXPERIENCE

Front-End Developer (Volunteer)

Gospool (Ride-sharing Platform) | Remote | [add dates]

- Contributed to the development of Gospool's **mobile application** using **React Native**, ensuring cross-platform compatibility (iOS/Android).
- Built reusable UI components (modals, buttons, navigation flows) with a focus on performance and mobile responsiveness.

- Integrated RESTful APIs to handle real-time ride requests, driver matching, and payment workflows.
- Implemented state management and conditional rendering to enhance booking, scheduling, and waiting screen flows.
- Collaborated with designers and backend engineers to transform wireframes into functional features within an Agile workflow.

Front-End Developer

Mecator (Fintech Solutions) |

Lagos, Nigeria | June 2025 - till date

- Developed and maintained responsive fintech web applications, like POS management system, prepaid payment system etc focusing on scalability, security, and seamless user experience.
- Built reusable React.js components integrated with Tailwind CSS to deliver dynamic dashboards and payment interfaces.
- Collaborated with backend engineers to integrate RESTful APIs for payment processing, transaction history, and user authentication.
- Implemented state management with Redux Toolkit for smooth handling of financial data across components.
- Worked closely with product managers and UI/UX designers to transform Figma prototypes into production-ready fintech solutions.
- Contributed to Agile ceremonies (sprint planning, daily standups, retrospectives) and performed peer code reviews.

Front-End Developer

NLPC Pension Fund Administrators (PFA)

Lagos, Nigeria | Jan 2024 – Dec 2024

- Utilized React.js to build dynamic, reusable components aligned with accessibility and performance standards.
- Worked closely with UX designers to convert high-fidelity Figma prototypes into responsive web pages using Tailwind CSS and React.
- Integrated RESTful APIs to display and manage real-time user pension data securely and efficiently.
- Collaborated in daily stand-ups and sprint reviews within an Agile team, contributing to planning and estimation.
- Conducted peer code reviews, implemented best practices for state management, and contributed to version control workflows using Git.

Front-End Developer (Freelance/Remote)

Jan 2023 – Dec 2023

- Delivered end-to-end development for international clients, including a UK-based cleaning services platform.
→ Live: <https://relianceimperial.co.uk>

- Transformed design concepts into responsive interfaces with React and vanilla JavaScript.
 - Used GitHub to manage and document feature rollouts, bugs, and client feedback.
 - Built custom form with otp and password validation logic, reusable buttons, controlled components.
 - Collaborated with clients in different time zones via Zoom, Discord and Slack, demonstrating strong remote communication skills.
-
- Integration of API

PROJECTS

React E-Commerce Store

GitHub: <https://github.com/CaptainYami1/react-ecommerce-store>

- Built a fully functional online shopping interface with cart, product listings, and checkout using React and Context API.
- Implemented dynamic routing with React Router and styled components with Tailwind CSS.
- Integrated local storage for cart persistence and used reusable card/grid components.

EDUCATION

Ajayi Crowther University

B.Sc. in Accounting / Nigeria

- Gained analytical and problem-solving foundations useful for front-end logic structuring.

CERTIFICATIONS

- **Meta Front-End Developer Specialization** – Coursera
(*React Basics, Advanced Patterns, UI State Management*)
- **Front-End Development Bootcamp** – Udemy
(*HTML, CSS, JavaScript, Responsive Design, UI/UX Best Practices*)

SOFT SKILLS

- Strong written and verbal communication skills
- Adaptable in cross-cultural and international environments
- Critical thinker with a problem-solving mindset
- Detail-oriented and design-focused

- Effective team player and independent contributor

LANGUAGES & INTERESTS

- **Languages:** English (Fluent), Yoruba (Native)
- **Interests:** Clean code architecture, animation in UI, Japanese tech culture, opensource contribution, tech meetups, anime

AVAILABILITY

Open to **remote** or **relocation opportunities** in **Japan, Canada, Europe**, and **global remote-first companies**. Passionate about joining innovative teams solving real-world problems with scalable front-end solutions.
