PROFESSIONAL SUMMARY

Results-oriented Software Engineer with experience in building scalable, secure fintech web applications. Proven track record in developing complex POS and payment systems with multi-tier, nation-wide architecture. Skilled in C# ASP.NET Core, React, and Redux, Javascript; known for translating high-fidelity prototypes into robust, production-ready solutions.

WORK EXPERIENCE

Software Engineer, Mercator

Sep 2025 — Present | Lagos

- Developed and maintained scalable fintech web applications, including POS management and prepaid payment systems, using C# ASP.NET Core, Razor, and React.
- Engineered reusable React.js components with Tailwind CSS, delivering dynamic dashboards and intuitive payment interfaces that enhanced user engagement.
- Collaborated with backend teams to integrate secure RESTful APIs for real-time payment processing, transaction history, and user authentication.
- Optimized state management using Redux Toolkit to ensure seamless handling of complex financial data across application components.
- Partnered with UI/UX designers to translate Figma prototypes into high-fidelity, production-ready fintech solutions.
- Participated in Agile ceremonies and conducted peer code reviews to maintain high code quality and streamline development workflows.
- Architected and implemented role-based access control (RBAC) for a nation-wide fintech platform, ensuring secure data isolation between bank and partner tiers while strictly adhering to complex client-specific business requirements.
- Strengthened platform security and compliance by implementing robust RBAC, successfully passing security audits and eliminating unauthorized access risks across multi-tier bank and partner environments.

Front-End Developer, NLPC Pension Fund Administrators (PFA)

2024-01-01 — 2024-12-01 | Lagos, Nigeria

- Utilized React.js to build dynamic, reusable components aligned with accessibility and performance standards.
- Worked closely with UX designers to convert high-fidelity Figma prototypes into responsive web pages using Tailwind CSS and React.
- Integrated RESTful APIs to display and manage real-time user pension data securely and efficiently.
- Collaborated in daily stand-ups and sprint reviews within an Agile team, contributing to planning and estimation.
- Conducted peer code reviews, implemented best practices for state management, and contributed to version control workflows using Git.

VOLUNTEERING & LEADERSHIP

Front-End Developer (Volunteer), Gospool (Ride-sharing Platform)

2025-07-01 — 2026-01-01 | Remote

- Contributed to the development of Gospool's mobile application using React Native, ensuring cross-platform compatibility (iOS/Android).
- Built reusable UI components (modals, buttons, navigation flows) with a focus on performance and mobile responsiveness.
- Integrated RESTful APIs to handle real-time ride requests, driver matching, and payment workflows.
- Implemented state management and conditional rendering to enhance booking, scheduling, and waiting screen flows.

EDUCATION

B.Sc in Accounting, Ajayi Crowther University

Nigeria 2023-01-01

Leveraged accounting background to build strong analytical and problem-solving foundations, directly applicable to complex front-end logic and data structuring.

CERTIFICATION

Meta Front-End Developer Specialization, Coursera

2024-01-01 — 2025-01-01

React Basics, Advanced Patterns, UI State Management

Front-End Development Bootcamp, Udemy

2023-01-01 — 2024-01-01

HTML, CSS, JavaScript, Responsive Design, UI/UX Best Practices; received extensive technical mentorship throughout the program.

SKILLS

React.js, C# ASP.NET Core, Redux Toolkit, Tailwind CSS, RESTful APIs, Git/Version Control, Agile/Scrum, React Native, Figma (Design-to-Code)

SIDE PROJECTS

React E-Commerce Store

2026-05-11 — 2026-05-11

- Built a fully functional online shopping interface with cart, product listings, and checkout using React and Context API.
- Implemented dynamic routing with React Router and styled components with Tailwind CSS.
- Integrated local storage for cart persistence and used reusable card/grid components.

Personal Portfolio

2026-05-11 — 2026-05-11

- Designed and developed a mobile-first personal portfolio website to showcase professional projects, resume, and contact form.
- Focused on clean UI, smooth animations, and responsive design to ensure seamless user experience across devices.
- Implemented reusable components and optimized layout for performance and accessibility.

Real-estate website

2026-05-11 — 2026-05-11

- Developed a responsive real-estate web application showcasing properties with advanced filtering and search functionality.

Cleaning service website

2026-05-11 — 2026-05-11

- Built a user-friendly website for a cleaning service, featuring responsive design and clear service information.
